Acting
together to
decarbonise
Europe

Who we are

The European Heat Pump Association (EHPA) promotes awareness and deployment of heat pump technology in Europe. All activities aim at creating a market environment that facilitates a faster deployment of heat pump technology to unleash its benefits on a European level: efficient heating and cooling using renewable energy.

EHPA also coordinates the Heat Pump Keymark – a European certification scheme for all heat pumps, combination heat pumps and hot water heaters.

EHPA has 120 members from 22 countries: heat pump manufacturers, heat pump component manufacturers, national heat pump associations, consultancies, and research & test institutes.

Your voice in Brussels

EHPA calls on policy makers to integrate the use of heat pumps as a core technology for the provision of heating, cooling and hot water from renewable energy sources or waste energy for residential, commercial and industrial applications in European countries.

Major policy topics:

- Ecodesign Regulations
- Energy Labelling Regulations
- Energy Efficiency Directive
- Renewable Energy Directive
- Energy Performance of Building Directive
- F-gases Regulations

Your exclusive benefits

Be part of the network.

- Benefit from a special rate at our annual Forum
- Attend private dinner debates with key EU stakeholders
- Participate in high level conferences and meetings

Be a market expert.

- Receive our annual statistics report on the market (value: 2 000€)
- Benefit from special offers to have access to our statistics on-line tool all year long
- Get insight on available EU financial supports

Be always informed.

- Read our Exclusive weekly wrap up report
- Get access to an Up-to-date internal website
- Receive flash news
- Interact with us during live and online meetings

Shape tomorrow's heat pump environment by joining one of our Working Groups*

* Join one of our working groups for non-domestic heat pumps, certification, national associations, manufacturer, gas heat pumps, communication & advocacy or create your own!

Membership Fees (from 2018 on)
