Episode 1 of this new podcast covers the California Energy Commission’s new investment plan, natural refrigerants training in Europe, and Star Refrigeration’s new heat pump.
Brought to you by shecco Media, the NatRefs Show provides a round-up of the most important natural refrigerants news from the websites 744.com, ammonia21.com and hydrocarbons21.com.

Episode 1 covers the California Energy Commission’s new EPIC investment plan, shecco’s new GUIDE to Natural Refrigerants Training in Europe, the 7th IIR Ammonia and CO₂ Refrigeration Conference in Ohrid, the European Heat Pump Association’s DeCarb Heat event in Brussels, and the deployment by Star Refrigeration of the UK’s first water-source heat pump (WSHP) for district heating.

We’d love to hear your feedback as we improve the show over the coming months. Contact us at journalists@shecco.com. Happy listening!
