# EHPA Celebrates 10 Million Heat Pumps in Europe

2017/12/24

On December 6, the European Heat Pump Association (EHPA) held a party described as the hottest party of the year in order to celebrate the installation of 10 million heat pumps in Europe. EHPA invited major stakeholders of the energy, heating, cooling, and other sectors to celebrate this milestone and to promote green energy, zero emissions, and clean air. Guests included heat pump manufacturers, component manufacturers, decarb heat signatories, policymakers at European Union (EU) and national levels, nongovernmental organizations (NGOs), energy utilities, and industry associations.
