Vision

‘In a fully decarbonised Europe, heat-pump technologies are the number one heating and cooling solution, being a core enabler for a renewable, sustainable and smart energy system.’
About EHPA

Founded in 2000

170+ Members
- Heat pump manufacturers
- Component manufacturers
- National associations
- Consultants
- Research & test institutes

22 Countries

International cooperation with the International Energy Agency, International Renewable Energy Agency and more
Governance

- Andrea VOIGT
- Barbara FREISINGER
- Dina KÖPKE
- Ennio VILAMITJANA
- Hauke HAASEN
- Johannes BRUGMANN
- Jose HEPGADO
- Luc DE TORQUAT

- Malgorzata SMUCZYNSKA
- Marek MIARA
- Martin FORSÉN
- Patrick CROMBEZ
- Rolf Her HAGEMOEN
- Rosana RODRIGUES
- Thomas FLECKL

General Assembly
All Members

President: Martin Forsén
President

Executive Board

- Martin Forsén
- Vice-President(s)
- Johannes Brugmann & Patrick Crombez
- Treasurer: Dina Köppe

Thomas Nowak
Secretary General

Manufacturers Committee
Patrick Crombez
Chair

Advocacy and Communication Committee
Hoger Thamm
Chair

National HP
Associations
Valerie Leplagne
Chair

Quality Label
Christian Kühfing
Chair

Research and Innovation Committee
Dan Stefanica
Chair

Task Forces
Moderated by the policy team

- Ecodesign & Energy Labelling Task Force
- EU Green Deal Task Force
- Refrigerants Task Force
Welcome to EHPA – Overview of our activities

Team

- Thomas Nowak
  - Secretary General

Policy
- Joze{ }fien Vanbecelaere
  - Head of EU Affairs
- Mél{ }anie Auver{ }y
  - Senior EU Affairs Advisor
- Alessia del Vasto
  - EU Affairs Advisor
- { }Martin Gutierrez
  - EU Affairs Advisor

Administration & HR
- Ana Pérez Quimbi{ }u{ }co
  - Operations Officer
- Paula Anton Vergara
  - HR Officer and Executive Assistant

Projects
- Dan Stefanica
  - Head of EU Projects
- Irene Egea Saiz
  - EU Project Officer
- Elena Ricci
  - EU Project Officer
- Sonia Bianconi
  - EU Project Officer

Membership & Events
- Savina Cenuse
  - Head of Membership & Events
- Paula Acero
  - Events Assistant

Communication
- Sarah Azou
  - Head of Communications
- Daniela Floris
  - Communications Officer
- Milagros Garcia
  - Communication Assistant

Heat Pump Keymark Certification
- Tarik Belahcene
  - Head of HP Keymark Secretariat

External
- Pascal Westring
  - Statistics
'EHPA is the voice of the heat pump sector in the EU. EHPA works to shape EU policy that allows heat pumps to become the number one heating and cooling choice by 2030 and a key part of a future decarbonised Europe.'
Policy priorities

**Ecodesign & Energy Labelling**
- ENER Lot 1 & 2: Space & Water heaters
- ENER Lot 6: Multifunctional Units
- ENER Lot 10: Air conditioning appliances
- ENER Lot 33: Smart appliances
- Energy Labelling Regulation
- Ecodesign & Energy Labelling Working Plans and MEERp
- Ecodesign for Sustainable Products Regulation (ESPR)

**Contact:** melanie.auvray@ehpa.org

**Refrigerants**
- F-gas Regulation
- PFAS

**Contact:** alessia.delvasto@ehpa.org

**European Green Deal**
- Energy System Integration
- EU 2050 & Climate Law
- EPBD & Renovation Wave
- COVID - 19 & Recovery
- NECPs
- Finance & Taxonomy
- Energy Efficiency
- Renewable Energy
- Industrial Strategy
- Energy Taxation & ETS
- REPower EU

EU heat pump accelerator

To meet the REPowerEU targets to double heat pump sales by 2026, EHPA is calling for an EU heat pump accelerator focusing on 5 crucial goals:

1. Creating trust in long-term ambition for heat pumps
2. Making clean heating the financially most attractive choice
3. Ensuring policy helps and does not hinder the market
4. Boosting skills for the energy transition
5. Supporting R&D
Committees, task forces, working groups

Manufacturers Committee
Patrick Crombez
Chair

Advocacy and Communication Committee
Holger Thamm
Chair

National HP Associations
Valérie Laplagne
Chair

Quality Label
Christian Köffinger
Chair

Research and Innovation Committee
Dan Stefanica
Chair

Industrial & Commercial Heat Pump Working Group
Veronika Wilk
Chair

Thermally driven Heat Pump Working Group
Gerrit Füldner
Chair

Task Forces
Moderated by the policy team

Ecodesign & Energy Labelling Task Force

EU Green Deal Task Force

Refrigerants Task Force
“After record growth in 2021, there are now 16.98 million heat pumps in the EU, covering around 14% of the heating market”.

Market data
Welcome to EHPA – Overview of our activities

Exclusive to EHPA members

EHPA Extranet

- Members' only online platform
- Groups
- Resources: statutes, bylaws
- Calendar: private & public events
- Polls
- Newsletter
- 'My profile'
- Subscription preferences

EHPA stats tool & market report

- Free for members
- Sales module updated with the latest data
- Export data in .csv or .pdf
- Create stories

Any question? marketreport@ehpa.org
Communications

- Ensuring that our messages and positions are impactful and convincing.
- Using the right channels, language and visuals, to resonate with our audience of EU decision-makers, media, stakeholders, experts, members.

Engage, inform, advocate

Contact: sarah.azau@ehpa.org
Events

- Members meet at the annual general assembly. EHPA organises the annual conference Heat Pump Forum, and several heat pump related events and webinars every year. We also co-organise and support the European Heat Pump Summit in Nuremberg. EHPA is present at major trade fairs in Europe.

Network, showcase your products and services

Contact: savina.cenuse@ehpa.org
# Projects

## Overview

- **10 ongoing projects**
- Interests: HE, LIFE, Interreg, Tenders, Innovation Fund, others
- **10+ new proposals per year**
- Annual Heat Pump Awards
- Key deliverables yearly (e.g., Industrial strategy, Competency framework, LCAs, SRIAs)

## Main topics

- Skills and training
- Waste heat recovery
- Deep retrofit/OSS
- Industrial HPs
- Deployment strategy
- Thermal storage
- EU initiatives
- Business models
- Policy

## We organise

- Events
- Webinars
- Communication
- Trainings
- Stakeholder links
- Matchmaking
- National panels

Find out more [HERE](#)
Heat Pump Award

- The Heat Pump Award is an EHPA project which recognises the most efficient, smart and sustainable Heat Pump project at the local level.

Apply now!
KEYMARK certification scheme for heat pumps

- A third-party certification aids purchasing decision and gives consumers the confidence they have bought a quality product.

- The recognised KEYMARK quality mark can be used to have access to public subsidies in majority of the European countries.

- The scheme is open to all interested parties and details of certificate holders and certified products are free access.

- Join on social media a large community and benefit from a great exposure.
