

# Communications officer (multimedia)

Are you a visual communicator, and a technical whizz? A creative who likes nothing better than to translate qualities into colour and style, and messages into clear, captivating images and videos?

EHPA, the association representing the heat pump sector in Europe, is looking for a communication officer with especial skills in graphic design, multimedia and web. The ideal candidate is a creative and well organised team player, with technical skills and a visual eye.

## The Role

As communications officer (multimedia) at EHPA, you will report to the Head of Communications and be a central part of the communications team, but with a cross-cutting role across the organisation. You will support colleagues on a range of multimedia communications products such as video production and graphic design. Knowledge of web design is a plus.

## Your Profile

- Bachelor or master's degree
- 2-5 years of work experience in graphic design, web design or multimedia communications
- Proficiency with graphic design (Photoshop, Illustrator, InDesign) and sound and video editing (Audacity, PremierPro or similar) software
- Familiarity with Wordpress and ideally, some understanding of CSS web code
- Basic understanding of the EU decision-making process
- Positive attitude, team spirit, creativity, willingness to learn
- Fluent English, ideally another European language
- Working permit in Belgium

## The Offer

You will have a great opportunity to:

- develop your communication skills in a dynamic and booming net zero sector
- gain valuable experience in EU affairs on climate, energy, and environmental themes
- join a dynamic and international, fast-growing team
- be offered a competitive salary including a 13<sup>th</sup> month, with meal vouchers, phone, laptop, health insurance, public transport fee and extra-legal holidays.
- earn a salary of 34k-36k per year depending on experience

## How to Apply

Please send your CV and cover letter by 24 September 2023, with the email subject 'Communications Officer (multimedia) application – *your name*', to the attention of Sarah Azau ([recruitment@ehpa.org](mailto:recruitment@ehpa.org)).

## About EHPA

The European Heat Pump Association (EHPA) is a trade association representing the heat pump technology at a European level. Heat pumps are a unique renewable technology for heating and cooling. They can make a major contribution towards achieving Europe's climate and energy challenges.
